Project 1: Cybersecurity Risk Assessment Report

Goal

Simulate a risk assessment for a fictional company.

Company

GreenTech Solutions

Identified Assets

1. Customer data
2. Internal systems

Potential Threats

1. Phishing
2. Malware
3. Insider threats

Risk Matrix (Likelihood vs. Impact)

Threat	Likelihood	Impact
Phishing	High	Medium
Malware	Medium	High
Insider threats	Low	High

Proposed Mitigations

1. Multi-Factor Authentication (MFA)
2. Employee training
3. Firewalls
